Subj: BERC DELIVERY ORDER 004: WORK PLAN ACCEPTANCE

Dear Dr. Hunt:

The Berkeley Environmental Restoration Center has revised the work plan for the Intrinsic Sediment Processes Study at Sites 2 and 17, NAS Alameda, for Delivery Order (DO) 004 under Contract N62474-94-D-7430. The draft final Treatability Study Work Plan, Revision 1, dated February, 1997, is accepted by the Navy.

The Navy will require eighteen (18) copies of the final work plan for distribution. Three of the eighteen will be controlled documents for Messrs. Jones Tong (ROICC), Miles Jones (Contracting Officer) and Ken Spielman (RPM).

The Quality Control (QC) Plan for the DO004 work plan shall be submitted to me for distribution prior to field mobilization. Please submit one (1) copy of QC Plan directly to the ROICC (Mr. Jones Tong) for review. I will contact the ROICC to arrange the pre-construction meeting.

If you have any questions, please contact me at (415) 244-2539, or FAX (415) 244-2654.

Sincerely,

Original signed by:

KEN SPIELMAN
Remedial Project Manager
By direction of
the Commanding Officer
